- Recommended: 2 GB RAM or greater.
- Hard drive with additional free space (after operating system installation) for ARTA Lending installation (500 MB initial install, with an additional 50 MB free space for each added state. 4.0 GB free space for a full 51 jurisdiction install).

# Printers

## Requirements

- PCL5 or PCL6 compatible laser printer (Example: HP 4000 Series, 8000 Series, and Lexmark Optra Series)
- Two programmable (not multipurpose) paper trays, one of which must be an 8½" x 14" paper tray
- Printer memory:
  - 8 MB installed for 300 dpi resolution.
  - 16 MB installed for 600 dpi resolution.
  - 32 MB installed for 1200 dpi resolution.

### Notes

- Due to the large variety of printers available in the market today, we are unable to test our programs with every printer.
- Printers that are NOT supported include HP L Series, HP1000 Series, HP2000 Series, Okipage, and Brother HL 1000 Series.
- Multi-purpose (printer, copier and fax) printers may meet the above requirements; however, we do not recommend using multi-purpose printers with our software as we may not be able to assist with problems printing to these printers.

## Additional Notes

These requirements are for systems running ARTA Lending only. A higher megahertz (MHz) processor and or more random-access memory (RAM) have shown to improve the overall performance of ARTA Lending. Consult with your technical staff if you will be running additional applications, as this will increase the listed requirements.

- These requirements are subject to change without notice.
- Microsoft Small Business Server is designed strictly for small business applications and is not supported.
- The latest service packs should be installed for all Microsoft products.
