Admin Console - Manage Users

We updated the Admin Console to require users to enter a home address. These fields are now required whenever a user entry is added or edited:

- Home Street #
- Home Street Address
- City
- State
- ZipCode

When a user enters a **ZipCode**, the system populates **City** and **State** automatically.

Sales Tax Override

We corrected an issue that caused the sales tax **manual override** box on the deal structure page to be checked by default. Now, the deal structure **manual override** box is checked initially only if the **override** box is checked on the application submission second page.

- Bookout Information:** Features a 'Bookout' button and a table of values.
