American Credit Acceptance, LLC PO Box 4537 Carmel, IN 46082	

### Add Fax Lender Issue

Users of IE10 reported that they cannot add a fax lender in IE10/IE11 in the RMS/REC/VFI portals. A configuration change on the portals was deployed to correct the issue.

## Bank of America rate markup change

Bank of America has requested that we modify the rate markup to 2 points over the dealer's buy rate.

Revenue. Certificate of Registration No. <span style="border: 1px solid red; padding: 2px;">26-8015475306-1</span>		

## CRIF ACTION Interface

We created a new interface for lenders on the CRIF ACTION Loan Origination Solution (LOS). This new interface will allow the transmission of credit application data including borrower, collateral & structure information from AppOne → CRIF. Conversely credit decision data including loan status and terms will be exported from CRIF → AppOne. The first lender that will be launching with this new interface will be Medallion Bank. Medallion Bank is currently a lender on the AppOne Platform that receives applications **via fax** from dealers & Virtual F&I organizations. As a result, these users today have manual callback population enabled that will allow them to manually input the fax callback into AppOne before printing docs. With the launch of this interface, this option will be turned off for all dealers and VFI organizations as this data will now electronically come back via the interface and Medallion Bank does not want to allow its dealers the ability to change their callback manually. Medallion Bank also plans on sending a fax callback in parallel to the dealer for a while until dealers get used to the electronic interface. Finally, we have modified the program setup for Medallion as follows:

- **Medallion - Marine Program** - to be only used for Marine deals.
- **Medallion - RV Program** - to be only used for RV deals.
- **Medallion - MotorCycle Program** - to be only used for MotorCycle deals.
- **Medallion - Trailer Program** - to be only used for Trailer/HorseTrailer deals.

Current - Callback Population Enabled
