

Getting Started with F&I Express®

F&I Express is now available with AppOne for Auto dealers

- Quickly access more than 90 providers of aftermarket products through one web site.
- Cut costs and increase efficiency with innovative F&I Express technology.

How do I activate F&I Express?

- Go to the **ADMIN CONSOLE** tab to enable F&I Express.
- Select the **3rd Party Interfaces** link and go to the **Menu/After-Market Product Provider Systems** section.
- Check the **Enable/Disable** box for F&I Express. An F&I Express page opens.
- Click the **Click here** link, and the F&I sign-up page opens.
- After entering your dealership information, select the providers that you currently do business with.

How do I set up a warranty or other aftermarket product with F&I Express?

- Set up the warranty or other product on the **Structure** tab after you've selected a lender.

- Click the **F&I Express** button. A pop-up opens connecting you to F&I Express.
- The F&I Express website guides you through set-up of your aftermarket products.
