

RouteOne Lenders for ACA and UAC Dealers

Getting started with RouteOne is simple

- ACA and UAC's RouteOne programs are now available on your **ADMIN CONSOLE My Lenders** page and on the **Lenders** page within the application.
- To finish set up, go to the **ADMIN CONSOLE My Lenders** page, enter your dealer number in the **LenderDealerID** column, and you are ready to transmit applications and receive callbacks.

To set up additional RouteOne lenders

When a lender activates you with RouteOne, that lender's RouteOne program appears automatically in AppOne. If you want to set up additional RouteOne lenders:

- In the AppOne toolbar, select **Lenders**.
- Select the **RouteOne DSP Lenders** subtab.
- Click the second **click here** link (item 1b) to request access to RouteOne lenders.
- In the **Add New Lender** pop-up, enter the names of one or more lenders and add your dealer number. Click **Send Message**.
- The lender or lenders receive your request and send your information to RouteOne, which activates your account.
- Once AppOne has received your lender activation information, the RouteOne lenders appear on the **ADMIN CONSOLE My Lenders** page in the **RouteOne DSP Lenders** section.
- Optionally, set up form batches for the RouteOne lenders on the **My Form Batches** tab.

Note:

You must have an AppOne subscription before you can set up form batches or print documents. To set up your free trial subscription, click the **Activate Free 30-Day Trial** button on the My Lenders page. If your free trial has expired, contact Supportline at 877-404-6788 to reactivate it.

Create an application and print documents

Create an application and print documents as you would for any AppOne lender. For detailed information, select **Support** from the AppOne toolbar.
