* Suggested Retail Price maximizes the commission that will be paid to the dealer. The dealer has the option of reducing the Suggested Retail Price of a service contract to facilitate its sale. The reduction, up to the amount of the dealers commission, will be offset dollar for dollar against the applicable commission. In the event the service contract coverage is cancelled, for whatever reason, a pro rata charge-back of the commission will be made. The charge-back will be made against a future contract purchase, or may be invoiced to the dealer.

\$100 deductible included in both Group A and Group B Coverages

(\$0 deductible is not an available option with the Standard Coverage offered)
