Faxed Credit App - Text Cut-Off

We corrected an issue that caused faxed credit application text to be cut off near the right margin. The issue was caused by long email addresses. After the update, email addresses that don't fit in one line wrap to the next line and no text is cut off.

Lender Interfaces - Powersports - New MSRP

We updated the portal to send the MSRP to the lender as the collateral value if the user enters an MSRP and if the collateral is a new powersports unit.

Optimize Long Running Query: Credit Report

As part of an effort to improve performance, we optimized a query that runs when a user clicks the top-level **Credit Reports** tab. After the update, users accessing the top level **Credit Reports** tab experience faster response time.

Portal Footer System Requirements Update

We updated the **System Requirements** link in the portal footer to open the **System Requirements** page of the **Support** tab help system. The **System Requirements** link is available on the log-in page and on the portal after the user is logged in.
